# Hobbies

Reading books , playing chess

## Data visualization| EDA and Visualization of Udemey course

*Oct, 2022*

- I was working with Kaggle's Udemey Courses dataset, which contains 3678 rows by 12 columns.
- Show number of paid and free courses, more courses and Find Levels Which level has the most subscribers.
- Show Top 10 Courses by Subscriber Count Does Price Affect Review Count.

## Exploratory Data Analysis and Visualization of Ecommerce Purchases

*Nov, 2022*

- I was working with Kaggle's e-commerce shopping dataset, which contains 10000rows by 13 columns.
- Find people with an email ID of @yahoo and an email address of someone with an IP address of 24.140.33.94.
- Find the period for which credit cards expire in 2020.

## SQL, Excel, and Power bi | global superstore

*Dec, 2022*

Power Bi dashboard creation worked with a global supermarket data set.

- Use data cleansing and transformation methods for this dashboard.
- Describe some points in this dashboard, such as year of sale, number of deliveries (days), segment sales or market sales.
- Display the top 5 profitable products and the top 5 unprofitable products with the top 10 customers.
